## **Instructional Coach's Role**

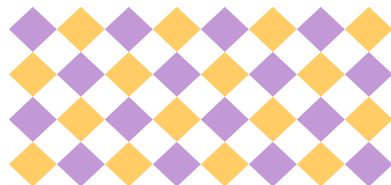

Much have I learned from  
my teachers, more from my  
colleagues, but most from  
my students. Talmud

2009-2010

# Coach's Job Description

- Observe, coach and give constructive feedback to peers
- Utilize best instructional practices including classroom management and organization
- Build relationships and enhance communication skills
- Develop knowledge of state and local science curriculum standards, student assessment and resources
- Continue learning best practices and current trends in science instruction through attendance in workshops and conferences related to their duties.  
Collaborate with teachers individually and grade level groups to meet curricular and classroom needs

Research, Projects,  
Powerpoints, web  
quests

## Roles:

Help locate resources requested by teachers

Higher level student questioning

strategies.

Share current data on best practices

Help with data collection and analysis

Assist with lesson design to link state standards to instruction

Aid teachers with integrating technology and content

Model lessons

Cover your classroom so that you may observe another teacher

Assist with classroom management strategies
